   d. She successfully petitioned for the state of New York to pay workers over time when they had to work over eight hours in one day.

Part B: Short Answer: Instructions: Answer the question below.

1. One goal of the Progressive Movement was to Promote Social Welfare. What were some methods used and actions taken to achieve this goal in this era?
   There were many ways that people tried to Promote Social Welfare. In the Social Gospel Movement, the Young Men’s Christian Association was formed to help those in urban areas have access to a community life. Likewise, the Salvation Army was formed to help the poor and feed them. In addition to this, some petitioned for the government to intervene to help the poor. For instance, Florence Kelley helped persuade the state of Illinois to ban child labor. Also, people like Jane Addams started settlement houses to help poor immigrants and struggling mothers.
