Part B: Short Answer: Instructions: Answer the question below.

1. What was the Boxer Rebellion? How did it end?
   While John Hay achieved a peaceful policy between the European nations and the USA with the Open Door Notes, this did not protect the imperial powers from local rebellions. A group of martial artists called the Boxers rose up and determined to remove foreign influence out of China. They targeted missionaries, Westerners, and all affiliated with foreign influence. France, Germany, Japan, Britain, and the USA united their forces to crush the Boxer Rebellion. In 1901, the Chinese government signed the Boxer Protocol officially ending the rebellion.
